

Plate Roll Operator

Type: Full-Time

Location: Acheson Alberta (just west of Edmonton)

Days: Monday to Friday

Rozen Steelworks is a leading industrial fabrication shop in Alberta, specializing in complex projects for critical sectors like the oil sands, mining, and infrastructure. We pride ourselves on precision, quality, and an unwavering commitment to our clients and team.

We are known for our fast turnaround time (a must for industrial maintenance) and for communicating with the Owner, so the job is done right the first time. Open communication among our team and clients ensure everyone has what they need to get the job done on time and on budget.

The Rozen Steelworks roll operator position involves operating various metalworking machines to shape and form metal stock into specific shapes and products. This role requires a strong understanding of metal fabrication processes, the ability to read and interpret specifications, and the ability to troubleshoot and fix minor issues.

Key Responsibilities:

- Operating Metalworking Machines: Setting up and operating various light or heavy metalworking machines, including presses, and other forging machines to shape metal.
- Shaping and Forming Metal: Cutting, bending, rolling, reaming, punching, drilling, welding, or otherwise shaping metal stock.
- Ensuring Product Quality: Checking products for correct shapes, dimensions, and other specifications.
- Troubleshooting and Maintenance: Investigating problems and making minor repairs to equipment.
- Material Handling: Selecting and transporting materials to the work area, potentially using cranes or hoists.
- Documentation: Recording completed work and maintaining accurate records.
- Following Instructions: Reading and interpreting specifications and following verbal instructions.

Qualifications and Skills:

- Education: While a degree or diploma is not always required, **prior experience heavy plate roll operation is mandatory.**
- Experience: Experience with roll forming large diameter, thick plate steel is mandatory. Experience with brakes and overhead crane, bending, and cutting.
- Physical Abilities: The role requires attention to detail and the ability to work in a physically demanding environment, often involving a combination of sitting, standing, and walking.
- Technical Skills: Experience with brakes, overhead cranes, and various metal forming or shaping operations is valuable.
- Safety: Overhead Crane Certification is required.

Health benefits:

- Dental plan
- Disability benefits
- Health care plan
- Vision care benefits

If this sounds like a good match for you, and you are excited to work with a fast-growing company with an experienced team please email careers@rozensteelworks.com with the position in the subject line. If successful, we will contact you for an interview. Thank you!
