

# Structural Estimator

**Type:** Full-Time, Permanent, In Office (\$40-45/hr)

**Location:** Acheson Alberta

**Days:** Monday to Friday

Rozen Steelworks has a reputation for having the best standards in Safety, Quality and Performance. Excellent project execution is realized through extensive communication and teamwork between the owner and the construction team providing the vision, the plan and the tools to succeed.

Our facilities were designed specifically for our operations which utilize the latest in welding automation. With a large plant site in Acheson, Alberta we have over 65,000 sqft of fabrication space and 19 Acres of lay down yard.

We specialize in the fabrication of pressure piping, power piping and structural steel. We are registered with the Alberta Boilers Safety Association, certified by the Canadian Welding Bureau and have certified CWB welding inspectors on staff to maintain our quality program.

## Key Responsibilities:

- Estimate major high value fabrication, and construction projects.
- Review proposal specifications and drawings, contracts and project documentation to determine the scope of work and required contents of the estimate.
- Review design options and recommend solutions based on cost, quality and availability of materials.
- Identify risks, perform material take-offs & perform labour build-ups.
- Develop an over-all cost estimate, execution plan and technical and commercial clarifications.

## Requirements:

- A minimum of 5 years of experience in estimating structural steel fabrication for complex projects. Experience must span the full cycle of an estimate.
- Demonstrable record of estimating major high value fabrication, and construction projects including reviewing specifications, drawings and scope of works, identifying risks, performing material take-offs, performing labour build-ups, developing an over-all cost estimate, execution plan and technical and commercial clarifications. Experience must span the full cycle of an estimate.
- Strong knowledge of lump sum and unit rates for structural steel fabrication.
- Fluent in the use of Tekla is considered an asset.
- Previous experience in developing estimating tools or programs would be an asset.

- Post-secondary degree or diploma in engineering, quantity surveying, business administration or PMP designation will be considered an asset.
- Knowledge of welding and manufacturing codes and standards is an asset (CSA W59, CSA W47.1, ASME, API, AWS).
- Knowledge in structural steel fabrication, connections, and erection practices.
- A team player, who has the ability to handle a variety of client groups, multi-task and prioritize projects, while thriving in a fast paced environment.
- Strong organizational skills and the ability to be flexible in managing changing priorities.
- Ability to handle own workload with minimal supervision.
- Strong Written and Oral communication.
- Analytical and problem-solving skills.
- Exceptional attention to detail.
- Proficient in Microsoft Word, Excel, Outlook and Project.

Benefits:

- Casual dress
- Dental care
- Disability insurance
- Extended health care
- Life insurance
- RRSP match

Why Join Rozen Steelworks? At Rozen Steelworks, we offer a challenging yet supportive environment where your hard work and desire to learn will drive your career growth. Join a team built on grit, ownership, well-being, and adaptability as you contribute to cutting-edge fabrication solutions for critical industries.

To Apply: Interested candidates are invited to submit their resume and cover letter detailing their academic background and relevant experience to [careers@rozensteelworks.com](mailto:careers@rozensteelworks.com). Please include "Structural Estimator" in the subject line. We would like to thank all applicants in advance for their interest. Only applicants selected for an interview will be contacted.
