

Maintenance Technician

Type: Full-Time

Location: Acheson Alberta (west of Edmonton)

Rozen Steelworks is a leading industrial fabrication shop in Alberta, specializing in complex, large-scale structural projects for critical sectors like the oil sands, mining, and infrastructure. We pride ourselves on precision, quality, and an unwavering commitment to our clients and team, providing comprehensive solutions, including specialized fabrication for tailings management. We are currently looking for a dedicated Maintenance Technician (Industrial Mechanic/Millwright) to join the Rozen Steelworks team in Acheson, AB.

Key Responsibilities:

- Develop, implement, and manage a comprehensive preventive maintenance program for all shop equipment and facilities.
- Perform scheduled and unscheduled maintenance, diagnostics, and repairs on CNC and fabrication equipment including OMAX waterjet table, Messer and Peddinghaus cutting and plasma machines, brake press, plate rolling machine, and weld overlay machinery.
- Maintain facility systems including HVAC, compressed air, overhead cranes, electrical distribution, and building infrastructure.
- Build and maintain a work order and equipment history tracking system (CMMS or equivalent).
- Manage spare parts and consumables inventory; source parts and coordinate with suppliers and vendors.
- Enforce Lock-Out/Tag-Out (LOTO) procedures and all applicable OH&S regulations.
- Conduct inspections, document maintenance activities, and report equipment uptime metrics to management.
- Liaise with contractors and OEM technical support for specialized repairs and certifications.
- Actively participate in safety meetings, hazard assessments, and incident investigations.
- Work as part of a team with co-workers and supervisors across all shop departments.

Requirements:

- Red Seal or equivalent certification as an Industrial Mechanic (Millwright) or closely related trade.
- Minimum 5 years of industrial maintenance experience in a fabrication or heavy manufacturing environment.
- Demonstrated experience developing or managing a preventive maintenance program.
- Proficiency with hydraulic and pneumatic systems; ability to read and work from schematics.
- Competency with electrical systems up to 600V including motor controls and VFDs.
- Experience with CNC machine maintenance: controllers, servo drives, encoders, and linear motion systems.
- Strong knowledge of LOTO, confined space, and working-at-heights procedures.
- Must be able to work independently and as a team in a busy, fast-paced environment.
- Able and willing to work overtime as required.
- Valid Class 5 driver's licence with reliable transportation to Acheson, AB.
- Experience with waterjet, plasma cutting, or weld overlay equipment is a strong asset.

To Apply: Interested candidates are invited to submit their resume and cover letter detailing their academic background and relevant experience to careers@rozensteelworks.com. Please include "Maintenance Technician" in the subject line.
